EXPERIENCE

Web development internship

Banlieues Asbl

📅 04/2019 - 07/2020   📍 Brussels, BE

Banlieues helps organizations in the voluntary sector to enter the world of ICT and offer technological products and services tailored to their needs.

- I worked on a project called Cformatplus. I did a form in which the users can register for a video-conference on the date that suits them with a date-picker and a captcha.
- I created a view in which displays a list of registered users with buttons in which an employee can send emails to the users. I did the whole page, i coded and set up the mailing service as well.
- I created a page in which the employees will be able to write an email that must be sent to registered users using a summernoteJs library. I did bug fixing.
- Analysis using different UML diagrams
- Unit and integration Tests.
- SQL queries development.
- What did you achieve in this role?
